INFORMATION REGARDING RECREATIONAL CLASS EVALUATIONS

We have constructed an evaluation system for the recreation program here at Mr. Todd's. We wanted to implement this system in order to ensure each student is in the correct class. We also wanted to set a standard for all instructors to make sure everyone is being taught the correct skills and drills for their level.

The required skills for each level are readily available for any student or parent that wants to know exactly what needs to be accomplished in their level. In order to move up to the next level, your student must successfully complete the athlete requirements list for their current class. This also gives the students a goal to work for as they come in each week. Every child will progress at their own rate. Evaluations will take place during Session 2 and Session 5.

When your child's instructor informs you that he/she is ready for the next level, you will receive an achievement ribbon along with a copy of the skill requirement sheet. During open registration you will have the chance to sign up for the next class. If there are no spots available, you will be placed on a waiting list until the class opens up. While your child is waiting for an opening he/she will remain in their current class.

The instructors are all aware of the skills needed in each recreation level, so your child will be working the next level skills regardless of how long it takes to secure a spot. We are doing our best to accommodate the large number of recreation students so please be patient with us as we all have the same goal in mind: Happy, healthy, confident students enjoying everything the sport of gymnastics has to offer. If you have any questions or concerns please see Marisa or Todd or email marisahart@optonline.net. Thank you for giving us the opportunity to teach your child the sport of gymnastics. If at any time you have questions or concerns please let us know ☺
